

Olathe Paper Oct 11 1897

Olathe Cemetery.

All owners of lots in the Olathe cemetery and all citizens interested, are respectfully and urgently invited to meet in Prof. Carroll's school-room on Tuesday night of next week, to concert measures for an organization to purchase and repair said cemetery. The failure of the city council and Mr. Beckwith to agree on the terms, and the continued exposure to horses and cattle on the north, west and south, are sufficient reasons for lot owners to take measures above indicated to properly secure the last resting places of their dead. Let there be a full attendance.

Respectfully,

A. CARROLL.
